Amendment After Final

Honorable Commissioner of Patents
and Trademarks
Washington, D.C. 20231

Dear Sir:

In response to the Final Rejection issued on November 7, 2001,
applicant advises as follows:

Remarks

The Examiner first rejects claims 6-9 under 35 USC 112, second
paragraph, stating:

"Claim 6 is rejected under 35 USC 112, second
paragraph, as being incomplete for omitting essential
structural cooperative relationships of elements, such
omission amounting to a gap between the necessary
structural connections. See MPEP § 2172.01. The omitted
structural cooperative relationships are: the applicant
does not properly recite in the claim how the anchor
strap further limits the lighting arrangement. Because
of their dependency, claims 7-9 are necessarily
rejected."
